OFFICE OF DEVELOPMENT

MEMORANDUM

September 14, 1987

TO: Peter W. Ghiorse
Vice President for Development and External Affairs

FROM: Mark G. Ackermann
Director of Development

I received a call from Mrs. William F. Buckley, Jr. today regarding an event she is planning with a gentleman by the name of Thomas Amann. It appears that Mr. Amann is an art dealer from Switzerland and that he and Pat are working with Sothebys Auction House on an art auction. Mr. Amann and Pat feel they can get several major artists and galleries to donate significant pieces that will be auctioned at a sale at Sothebys in the Spring of 1988.

Both Mr. Amann and Pat feel that this event has the potential to raise "significant six figures" and she was quite insistent that while she was happy to participate in the other event that raised money for "ongoing support" these funds are to be used "to start the endowment for Sr. Patrice, that we discussed."

I will keep you apprised of additional details as they become available.
