Mr. and Mrs. George E. Doty, Sr.
Park Drive South
Rye, New York 10580

Dear Marie and George,

On behalf of the Board of Trustees and the entire family of St. Vincent's Hospital and Medical Center of New York, I wish to express my sincere gratitude for your extraordinary gift of \$1,500,000 to our capital campaign. This gift, combined with your commitments in recent years, totals \$2,155,000. Your steadfast generosity to St. Vincent's is especially appreciated during this most crucial time in the history of the Hospital.

This letter will outline the terms of your gifts, including the use of the funds already committed to St. Vincent's. It is our understanding that your new pledge will be paid either in full in 1994, or one half paid in 1994, with the balance paid by the second quarter of 1995.

As presented to you in our proposal, and in accordance with your wishes, \$600,000 of new funds will be designated to create the Brian Wert Children's Health, Intervention, Learning and Developmental (C.H.I.L.D.) Center, named in memory of your grandson. The Center will utilize a multi-disciplinary team to screen, manage, treat and refer children with a wide range of developmental problems.

The sum of \$500,000 in new funds will be designated to the Department of Pediatrics Endowment. This Endowment will allow St. Vincent's, as the sole provider of pediatric services on the Lower West Side of Manhattan, to offer a comprehensive range of pediatric services to the community without compromising other essential Hospital services.

The sum of \$405,000 contributed in 1989, plus interest accrued, together with \$400,000 of new funds, will be designated to implement Phases I and II of the Master Facilities Plan which, upon completion, will provide St. Vincent's with a contemporary, technically advanced facility. And finally, the \$250,000 contributed for the renovation of the Hospital doors will be used specifically for this purpose.

Marie and George, as recipients of the 1993 Angelus Award you were honored for your unwavering devotion and loyalty to the ideals embodied by St. Vincent's and the Sisters of Charity. We are honored to have the proposed C.H.I.L.D. Center, which will benefit so many children, named after your grandson. Thank you for your continued support.

Sincerely,

J. Rock Tonkel
President and Chief Executive Officer
