Dear Mr. Ross,

On behalf of the patients and staff at St. Vincent's Hospital Westchester, I thank you most sincerely for your generous \$25,000 gift in honor of Myles Gillespie's membership to our Advisory Council.

For more than 125 years St. Vincent's Hospital Westchester has offered a comprehensive range of mental health and chemical dependency services for children, adolescents, adults and their families. Through an array of inpatient and outpatient services, we are committed to our mission of caring for all who come to us in need with respect, integrity, compassion and excellence.

The dedication and leadership of fine people like Myles allow us to meet the growing demands placed upon our institution, and to ensure that we are able to continue fulfilling our mission of providing the highest quality, most compassionate care to all who seek treatment.

Your gift will directly benefit the growth and development of St. Vincent's Hospital Westchester Behavioral Health Centers of Excellence in Ambulatory Care. Expanded services and renovations to the environments of care will positively impact existing, and new programs for children and families, mature adults, the developmentally disabled and chemically dependent populations in need of our care.

I have enclosed information describing our work within the Westchester and surrounding counties. The success of our mission is made possible through the generosity of people like you. I hope you will continue your support in the future.

Sincerely,

Brian L. Fitzsimmons, Ph.D.
Senior Vice President
Executive Director, Behavioral Health Services
